Mr. Hubert C. Lambert, State Engineer  
Utah State Capitol Bldg.  
Salt Lake City, Utah

Re: Escalante River Division Code #97

Dear Mr. Lambert:

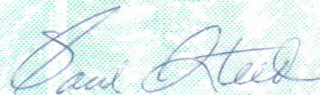

In going over the distribution of the water and water claims of the Alvey Wash. We feel that your office has done a very outstanding job in putting together this information. We feel that the information is accurate and correct, and we support your findings.

Now that this part of the work has been completed, we solicit your help now on the distribution of this water. We feel that it is very urgent that this be done this year.

We believe that if this is not done very soon, it may result in some very distasteful situations or even some violence.

Again let me state that we are willing to cooperate with your office at any time.

Sincerely yours,

  
Paul Steed
